

Our Training offer

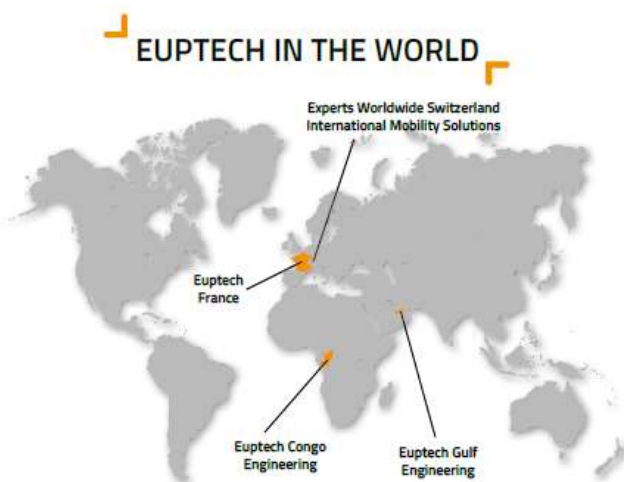

The Euptech Group

Euptech, created in 1989, is an International group of Consulting and Technical Assistance in Electrical Engineering specializing in Electrical Distribution.

With 30 years of expertise in Electrical Engineering, we deliver customized training sessions to our customers.

Our training sessions can be held on your site or in our Training Institute.

Training language: French, English, Spanish.

Training catalog

Electrical Safety

(initial and recycling)

According to French norm UTE C18 510.

- Non-electrical staff: H0(V) - B0
- Electrical staff : H1 (V) - H2 (V) - HC - HE switching operation
B1 (V) - B2 (V) - BC - BR - BE switching operation – BS
- Laboratory staff : B2 (V) testing - BR - BE measurement

Customized sessions on electrical safety International standards - on request.

Electrical Distribution LV

- Basic knowledge in electricity.
- Low voltage equipments.
- Calculation of low voltage installation (C15100).
- Earthing system.
- Trouble shooting and maintenance of low voltage installation.
- Operation and maintenance Compact - NS – NSX.
- Operation and maintenance Masterpact M - NT - NW – MTZ.
- Okken switchboard.
- Operation and maintenance LV Power Transformer
- Communication network (Ethernet, Modbus)...
- More courses on request.

Electrical Distribution HV

- Protection of high voltage installation.
- Dimension calculation of high voltage installation (C13100-C13200).
- High voltage equipments.
- Substations LV/HV.
- Maintenance and exploitation of medium voltage cubicle (Mcset – VM6 – SM6 – RM6 – Fluokit – Motorpact...).
- Protection relays Sepam, Micom, Vamp, P3, P5, Siprotec.
- Communication networks (Ethernet, Modbus, 61850...).
- Generators.
- More courses on request.

Automation

- Basics to logical programming and industrial process controllers (under Unity pro)
- Programming under UNITY for M580 – Level 1.
- More courses on request.

Variation speed drives

- Installation maintenance with variation speed drives
- Variation speed drives lifting and handling.
- More courses on request.

Training equipment's

Efficient teaching materials

Most of our trainings are delivered with simulator and injection bench developed by our R&D department :

Our team of technical trainers

- More than 10 years of experience in professional training in the electrical field.
- On the field experience for industry leaders (AREVA, EDF, Schneider Electric, General Electric, Siemens...).
- A technical expertise that allows us to answer all of your trainees' questions.
- International mobility and languages knowledge (English, Spanish) for all of our courses.

Quality commitments

Data Dock

In order to finance your trainings (for French companies) and to let our courses affordable, we have chosen to be referenced in the French Datadock database.

Training evaluations

At the end of each training session, every trainee fills in an evaluation grid that allows us to assess the quality of our intervention : content, quality of the session as well as material conditions.

Quality follow-up

Compilation and analysis of the answers of the evaluation surveys allow us to adapt our methods and interventions. Our goal is to maintain a high level of quality of our trainings in order to better answer our customers' needs.

ISO 9001 Certification

Euptech is certified French ISO 9001. All of our services are part of a quality process that commits ourselves to offer a quality and efficient service.
